

Exterior Painting Checklist Revised Jan 2022

Disconnect & move hoses

Painters will need access to Water & Power

What are you doing with your animals?

What are your plans? You will not be allowed to come and go.

Most doors and windows will be taped in with plastic.

Most garage doors will be painted, and they will be unusable.

Windows and doors will need to remain closed (and they will also be covered in plastic). This can make your home feel stuffy and hot, do not plan to stay indoors or leave your pets indoors.

Move your patio furniture.

To Do:	Side Note:	Complete:
Remove wind chimes and other items on the house	If rehangng in the same place okay to leave hanger on house	
Make sure crews have access to water & power	They will need water for cleanup and power for the sprayers	
Move Patio Furniture Away from home.		
No coming and going during the day.	The door and windows will be covered in plastic.	
Make sure animals have a plan for the day (not inside home).	If animals need to go out to the bathroom, or if it gets hot inside your home you will want to find another place for your animals.	
Have bushes or tree branches trimmed back		
Make sure fences are unlocked		
Remove security cameras (or they will be masked
